We Want to Hear From You!

Would you be interested in more organic or toxin-free baby products? Let us know what you think and we'll send a **10% discount coupon** to you just for telling us!

I would be interested in buying:

- Flushable, biodegradable diapers
- BPA toxin free baby bottles & sippys
- Natural rubber pacifiers
- Organic soft toys/teethers
- Made in the USA Clothing

Give us feedback in store, by phone 734-451-1885 or email us at: info@scentsofdelight.com Thanks!

What Does 'Green' Mean?

With all the concerns about what goes into products for children these days we hear a lot of words to describe them like 'Organic', 'Natural' and 'Green'. What's the difference and what do they really mean? **Green** products are environmentally friendly – usually made from renewable resources, biodegradable or not harmful to the environment. **Organic** refers to the way an agricultural product is grown & processed without the use of toxic pesticides or fertilizers. The word **Natural** on products means one or more of the contents is from nature and non-synthetic.

Nature's Baby Organic Soothing Stick

Great for scrapes, dry skin, chapped lips and more. We love the roll-up tube design that's easy to use & easy to take on-the-go. All organic, all natural ingredients and no chemicals make this the perfect product for babies and kids. All are doctor recommended & great for sensitive skin. A favorite of many celebrity parents, Nature's Baby has been featured on The Early Show, E! News and in People Magazine.

Nature's Baby Organics has other fantastic products like diaper cream, moisturizer and shampoo.

It's Easy to Be Green! Look for products like our **Isabooties** soft-soled shoes. The packaging is 100% recycled and the vegetarian-friendly, washable shoes are all made in the USA!

Non-Toxic Kid-Safe Cleaning Tips

The less chemicals around kids the better. Use these simple cleaning ingredients you already have at home. They are ultra safe to use around kids AND save you money!

Replace Spray Cleaners with White Vinegar – It dissolves dirt, soap scum, and hard water deposits from smooth surfaces, yet is gentle enough to use in solution to clean hardwood flooring. Add equal parts vinegar & water and you have an excellent multi-purpose cleaner. Use it on counters, mirrors, floors and other hard surfaces. It even deodorizes!

Substitute Scouring Powders with Baking Soda - Its mild abrasive action and natural deodorizing properties make it the perfect replacement to scouring powders. Sprinkle on a sponge to really scrub sinks and tubs.

Toss Furniture Polish in Favor of Olive Oil & Lemon Juice – Two parts olive oil to one part lemon juice mixed makes a great salad dressing that doubles as an amazing furniture polish. Apply a small amount to a cleaning cloth. Spread evenly over furniture surface. Turn cloth to a dry side and polish dry. The lemon juice dissolves dirt and smudges, while the olive oil shines and protects the wood.

Trend Report: Organics Are In

Organic Clothing is ideal for so many reasons. Non-toxic, natural and good for the environment! Today's styles aren't boring either-colors, patterns and textures offer cute looks. From the founder of Burt's Bees, **Happy Green Bee** features 100% organic clothing in bright colors and comfy stretch knits. Even the buttons are recycled! Mix-n-match pieces to fit 0-4yrs. **Positively Organic** is another great line with bold graphics and fun designs. Cuddly corduroys with matchings caps and tees, as well as their yoga pants and bug shirts that make perfect leisure outfits. For a more minimal look, **Kate Quinn Organics** has modern lines and soft muted colors that make a statement & fit up to 6yrs. Find all these great looks at Sweet Peas & Little Sprouts.
